## RADIANZ MATT FINISH

The Radianz matt finish is a brushed texture with uniquely soft touch that offers high-quality Colour consistency. The matt finish may require extra care and maintenance than the polished finishes. Due to the nature of the surface design, smudges, fingerprints, water spots and other signs of daily living might be more visible on the matt finish. It is recommended that common household spills are dried immediately using non-abrasive cleaning products and microfiber towel. For more information, please visit our website at [www.radianz-quartz.com](http://www.radianz-quartz.com).

## PREVENTING DAMAGE

Protect the surface when using metal utensils, cutlery and cookware during food preparation and avoid direct contact with extremely hot objects and caustic chemicals.
